

Now we are all clear .....

The time of the new time as the Mayan predictions are made has reached us. Of many is the energetic pattern increased without that one feels or knows, but with my gift of radiesthesia I have this in all humility, with a pure intention may measure and I include this on this site brought out. In the comments on my articles I found the question of what happens to the beasts of the earth after the transition. Will they still other defenseless animals devour, or will the new earth with a resonance at a 5 dimensional level this radical change. My measurements indicate that there is no more, and devouring all animals herbivores will be. So indeed, as in the wisdom books: then the wolf with the lamb, and the leopard shall lie down with the kid. The cow and the bear shall feed. Isaiah 11:6-9. This for us not to contain huge transformation allows us to be waiting. My measurements of the last days reveal more insight into what is waiting for us and much that has been always a mystery for us suddenly clearer. Example in my last measurements, as we many in the 5th dimension condition, so on earth with a higher frequency, we will according to my measurements, not aging. I was yesterday (December 19) warned that there in the Bible about and be able to: Isaiah 65:17 There shall no longer an infant of only a few days, nor an old man that hath not filled his days , for the child shall die an hundred years old. It now becomes clear what is meant by it. We start from the linear time of past, present, future to a cyclic time of a permanently expanding NOW. In this new era, we will not age, but all his / her maximum condition and appearance ranges as about a 29 year old has. This is for everyone. For in this state with our new energetic body, we will in Earth years of age can achieve such in the Old Testament says and what was normal in those ancient times known as the Golden Age was called. This golden age is before us on the horizon and sickness and pain will not be known. Also read this once in the Bible and I did not think that was standing there, but through my readings I came out on the same image: Isaiah 65:19 and there will be no more heard the sound of weeping and of crying. In many matching statements, I keep me wondering and wondering about the results of my gift. All this happened to me and I have never sought any publicity but to also indicate outside the small circle of friends and acquaintances. Now, however, we look forward to great things possible, I bring all this with some trepidation out. The purpose why I'm doing this is my neighbor aware of the huge leap in consciousness that we are and where we are overshadowed by the ejection of the unconditional love of the Creator, who in his great wisdom us thousands of years ago, predicted and often cryptic was defined, that no theologian could have anything or believed. I still would like to make it clear that I do not feel connected with ecclesiastical institutions or a particular religion. For me it is not a religion but a sure based on the Divine Source in the hearts of the people seated.
